Shaping the Future with ASCLS-WI

ASCLS-WI State Convention

April 22 - 23, 2020
(Student Bowl: Tuesday, April 21, 2020)

La Crosse Convention Center
La Crosse, Wisconsin

Save time and money!

Register online:
Visit www.ascls-wi.org for the registration link

ASCLS-WI State Convention

C/O Classic Events, Inc.
2109 County Hwy OO
Chippewa Falls, WI 54729
ASCLS-WI welcomes you to the beautiful riverfront of La Crosse, Wisconsin for ‘Shaping the Future with ASCLS-WI!’ This year’s program will provide a wide variety of P.A.C.E.® approved educational sessions, diverse industry and service vendors, an extensive student poster presentation, and a lively Student Bowl competition.

We have many educational and social activities that are sure to interest you: We will host a reception on Wednesday to honor Peter Shult of Wisconsin State Laboratory of Hygiene. Pete has been a tireless supporter of ASCLS-WI. Please join us to wish him well on his on his retirement! The Past Presidents are again invited to attend Wednesday’s luncheon which will include ‘reserved’ seating for those who have previously held this office. The event’s Student Bowl and Student Poster competition provide a chance for experienced society members to help ‘shape the future’ of our young lab professionals. Our Scholarship Committee will again hold a silent auction to provide financial support to our future colleagues.

We encourage you learn, network, promote, and advocate our profession while you help to ‘shape the future’ of incoming medical laboratory scientists. Please make plans to join us along the Mississippi, April 22 and 23, 2020.

ASCLS-WI 2020 Convention Planning Committee

General Information

Registration Information
Meeting attendees are strongly encouraged to pre-register by April 1, 2020 to receive the discounted rate. Non-Members must join ASCLS prior to the meeting to receive discounted member rates to the meeting. Join online or print an application at: https://ascls.org/membership/join.

You may send completed membership form and separate check payable to ASCLS along with your 2020 ASCLS-WI registration form and check to: ASCLS-WI c/o Classic Events; 2109 County Highway OO; Chippewa Falls, WI 54729. Please see pages 11 and 12 for further registration instructions.

Register Online! 
Save time and money by registering online. Visit www.ascls-wi.org for the registration link and follow the online instructions.

Onsite Registration
The registration desk will be located in the lobby of the La Crosse Convention Center on both days of the meeting.

Registration Desk Hours
Wednesday, April 22nd 7:00 am to 4:00 pm
Thursday, April 23rd 7:00 am to 3:00 pm

Exhibit Hours
Wednesday, April 22nd 12:00 pm to 3:15 pm
Thursday, April 23rd 10:15 am to 1:15 pm

Daily Prize Drawings!
Please visit the Exhibit Hall during exhibit hours for a chance to win daily prize drawings. Must be present to win!

Badges
Registration identification badges must be worn for admission to all educational sessions, meetings, workshops, vendor exhibits, and social functions. Replacement badges may be obtained from the registration desk for an additional fee of $5.

Continuing Education Credit
ASCLS-WI is an approved provider of continuing education by the P.A.C.E.® program, which is accepted by the ASCP Board of Certification and all states. The ASCLS-WI State Convention offers a wide range of educational opportunities to meet your continuing education needs. 36.0 hours of P.A.C.E.® approved, quality programming will be offered.

NOTE: In an attempt to align with ASCLS National practices, meeting attendees will complete session evaluations online and self-prepare their P.A.C.E.® Certificate of Attendance by using the online ASCLS C.E. Organizer program.

No paper copies will be distributed onsite. Further instructions will be given by session moderators during the meeting.
Session Handouts
Hard copies of presentations will not be available onsite, and we will not have the ability to print copies during the meeting. ASCLS-WI will provide electronic copies of handouts to our meeting attendees only for those presentations made available to us prior to the meeting. Attendees may access these handouts at the ASCLS-WI website: http://www.ascls-wi.org.

Hotel Accommodations
Radisson Hotel La Crosse
(Attached to La Crosse Center)
200 Harborview Plaza
La Crosse, WI 54601
608-784-6680
800-333-3333

Standard King or 2-Double Beds $132 + tax
Standard 2 Queen $142 + tax
Mississippi Suite $300 + tax

Please call by March 21, 2020 & mention ASCLS-WI to receive the discounted rate while these rooms are available.

Onsite Dining
Beverages will be available in the registration area on both mornings of the event. A continental breakfast will not be served. The Three Rivers Lodge (TRL) in the Radisson Hotel is open 6:30 am - 10:00 pm.

Onsite Parking
Radisson guests will receive free parking at the hotel, within walking distance of the convention. Free parking is also available in city-owned lots and ramps within one block of the La Crosse Center. Additional parking is available to guests of the three downtown hotels adjacent to the La Crosse Center.

Internet Access
Complimentary WiFi is available throughout the La Crosse Convention Center. Details will be available at the registration desk.

ASCLS-WI gratefully acknowledges the following organizations for their generous support of speakers and/or financial contributions toward this event:

- Abbott Laboratories
- ACL Laboratories
- Ascension Wisconsin
- Audit MicroControls
- Beckman Coulter
- Becton Dickinson
- CAP Accreditation Programs
- Cepheid
- Exact Sciences
- GenMark Diagnostics, Inc.
- Global Focus Marketing
- Gundersen Health System
- Marshfield Labs
- Mayo Clinic
- McKesson Laboratory Solutions
- Promega
- Roche Diagnostics
- SCIEX
- Siemens Healthineers
- SSM Health
- Sysmex America
- Total Water Treatment Systems
- Wisconsin Diagnostic Laboratories
- WSLH Proficiency Testing

Without the contributions of the above organizations, we would not be able to offer this comprehensive, quality program!

Thank You to the 2020 ASCLS-WI State Convention Planning Committee
We appreciate the individuals who volunteered their time & effort to make this program possible:

- Diane Schummer - Convention Chair
- Barb Fischer
- Sandy Hammond-Gonia
- Sue Janke
- Ken Johnson
- Nancy Levin
- Judy Wiltgen
**Special Events**

**Scholarship Fund Silent Auction**
Once again we will have a variety of exciting items awaiting your bid in the Exhibit Hall. This is an important opportunity to invest in our students and profession. Profits from the auction are used to fund a number of scholarships:

1. Four-year Scholarship for a high school senior paying $500 per semester for a total of 8 semesters
2. 4-5 CLS/MLS Clinical Year Scholarships for $1,200
3. Post Grad Scholarship for $1,500
4. CLT/MLT Scholarships for $750 each

We look forward to your participation and don’t forget to bid on your favorite items! New items will be available for bidding each day of the convention.

**Silent Auction Item Donation**
We welcome donations from groups, individuals, or exhibitors. Please bring your donations to the Silent Auction Registration area located in the Exhibit Hall at the La Crosse Convention Center - be sure to include your name, address, and retail value of the donated item.

**Annual Poster Display**
The 21st Annual Student Poster Display will be on site during the entire convention! Enjoy this opportunity to view the new and interesting scientific information presented by our future laboratory professionals, while earning P.A.C.E.® credit!

Judging will take place on Wednesday, April 22nd from 1:30 pm to 3:15 pm. Winners will be announced during ‘Lunch with the Exhibitors’ on Thursday, April 23rd at 12:00 pm.

**Tuesday, April 21, 2020**

**Student Bowl**
Our future professionals will be competing in the ASCLS-WI Student Bowl Competition on Tuesday, April 21, 2020. Teams are slated to determine the State Champions in both the CLS/MLS and CLT/MLT categories. Light snacks will be provided for those participating in and judging the event. This event begins at 6:00 pm at the La Crosse Convention Center. We look forward to seeing you there!

**Wednesday, April 22, 2020**

**Keynote Presentation** 8:00 - 9:00 am
Jonathan Dinse, FINRA, SIPC

John Dinse joined Northwestern Mutual - Appleton in the summer of 2013 after serving as the Activities Director at Lourdes Academy. During his tenure at Lourdes Academy they saw growth in leadership and development through their coaches training program, Knight School. Prior to taking the Activities Director position at Lourdes Academy, John spent 10 years at the University of Wisconsin-Oshkosh as a football coach and in various roles within the athletic department as an administrator. During his time at UW-Oshkosh, Dinse served as recruiting coordinator, special teams coordinator and coached a variety of positions. As an administrator, John was instrumental in the re-branding efforts of the department as well as various fundraising projects, including raising over $400,000 for the departments video scoreboard.

In his current role as Director of Training and Development, John is responsible for the development and follow through of the Financial Representative Learning Path. John lives in Appleton with his wife, Paula, and three sons, Hutson, Harrison, and Huston. He is an active leader within his sons Cub Scout Pack (3135-Appleton) and his alma mater UW-Oshkosh.

**Awards Program** 9:05 - 9:40 am
Plan to attend the ASCLS-WI Awards Ceremony to applaud the accomplishments of your peers!

**Educator’s Meeting** 9:45 - 10:45 am

**Student Forum Meeting** 11:00 - 12:00 pm
Join your fellow clinical lab science students for a separate networking session. We will be discussing issues that impact students as well as conducting ASCLS-WI elections and other business. Join us to uncover the benefits of our professional association membership. Hope to see you there!

ALL STUDENTS ARE INVITED TO ATTEND
~ Please RSVP on the registration form ~
Post Convention Meeting  3:45 - 4:15 pm

BOD Dinner Meeting  4:15 - 6:30 pm

NOTE: One hour of P.A.C.E.® credit equals 1 contact hour.
(B) = Basic level; no prior knowledge necessary.
(I) = Intermediate level; some prior knowledge necessary.
(A) = Advanced level; extensive prior knowledge necessary.

#1 Leading through Vision (I) JONATHAN DINSE, FINRA, SIPC - Leadership is a competency, that when harnessed, can be applied with in any role in any group, organization or social setting. Identifying your role and mastering the competencies to lead will allow you to take control and lead in your roles within life.

Don’t miss this Keynote Presentation!
8:00 am - 9:00 am

#2 What is the Value of a Gram Stain? (I) ERIN BOWLES, MT(ASCP) - Although originally devised in 1882, the Gram stain is still one of the most widely performed differential stains. When correctly performed and reported, a Gram stain provides preliminary results that allow a physician to make critical early decisions in treating a patient and determining whether antibiotic therapy is necessary.

#3 Today’s Testing of Thyroid Disease (I) REBECCA SMITH, MBA, MT(ASCP)SC - An overall look at thyroid disease and how health care practitioners are using a variety of laboratory tests to determine the cause and course of treatment.

#4 Efficacy of NARCAN Treatment (I) CHRISTOPHER EBERLEIN, MD - This session will include an update on drugs of abuse in our region, in addition to local and national statistics on opiate overdoses. The usage and efficacy of NARCAN will also be discussed.

Reservation succeeded.
#5 CPR/AED Awareness - Cardiac & Breathing Emergencies (This is a 2 hour session) (B) THOMAS K. LARSON, EMT-B - Learning points include recognizing an emergency exists and deciding to take action. Activating the EMS system; signs and symptoms of a heart attack; the cardiac chain of survival; CPR techniques for adults, children, and infants (compressions and breaths); hands only CPR; how to use a pocket mask and BVM to use an AED unit; common breathing emergencies and rescue techniques.

#6 Stand Up to Heart Disease: What Women Should Know (I) HEATHER MPEMWANGI, NP - Heart disease is the number one killer in the United States. Join this talk to find out who is at risk and what innovative treatment options are available.

#7 Most Frequent Deficiencies and How to Avoid Them (I) JOAN KOSIEK, MS, MT(ASCP)SH, MB - Are you anxious about your upcoming CAP inspection? Gain tips on what you should have ready for the inspection team. Learn how to comply with the latest check list requirements for a successful inspection.

#8 Bacteriophage: Nature’s Antibiotic (B) JESSICA DAHLKE, MLS(ASCP)CM - With the possible return to a pre-antibiotic era, the development of alternative antibacterial therapeutics is one of the highest priorities of modern medicine and bacteriophage therapy is a reemerging concept to combat this issue. This presentation includes an overview of bacteriophage therapy history, clinical applications, research and the outlook of bacteriophage therapy in the United States.

#9 What’s in a Name? Nomenclature Changes and the Potential Impact on Microbiology (I) PAT TILLE, PhD, BS, MT(ASCP), FACSC - The Age of Automation and Molecular Diagnostics in microbiology has changed the nature of diagnostics and the microorganisms. The presentation will discuss the extensive changes in taxonomic classification across bacteria, fungi and parasites as a result of molecular diagnostics. The nomenclature changes can and will likely affect patient treatment and outcomes. There is no one size fits all in a microbiology lab, and just because you can, does not mean you should, but “what’s in a name”, is more than meets the eye.

#10 Outreach: Unlock the Value of the Laboratory (B) LORI PIMENTEL, MS, MLS(ASCP)CM & HANNAH ARKENS, MLS(ASCP) - We will discuss the elements needed to build an effective hospital Outreach Program. These programs require full support from hospital leadership which includes the necessary resources to staff an effective team and drive change within the organization.

#11 What to Do with Proficiency Testing Failures (I) JOAN KOSIEK, MS, MT(ASCP)SH, MB - Where did we go wrong? Was it the samples, the instrument, the tech, the entire participant group? Learn how to investigate PT execution codes and provide acceptable corrective actions.

#12 Clinical Utility of Natriuretic Peptides (I) STEVEN A. NOEL, PhD, DABCC, MT(ASCP) - Natriuretic peptides are released from heart tissue in response to inadequate contraction and relaxation of the heart muscle, i.e. heart failure. Two types are present in serum: B-type Natriuretic Peptide (BNP) and N-terminal ProBNP (NT-ProBNP). The clinical application of both peptides for diagnosis and patient management are discussed.

#13 Clinical Utility of Advanced Clinical Parameters in Hematology: Immature Granulocytes (IG) (I) SUSAN KANE, BSN - This presentation will discuss advanced CBC parameters including immature granulocytes. Peer reviewed studies will be presented highlighting the clinical utility of the lab data. Case study examples will be reviewed to illustrate the clinical benefits of these parameters.

#14 The Lab Tech’s Guide to Promoting the Profession (B) KATHRYN GOLAB, MLS(ASCP)CM - Learn the ins and outs of the laboratory profession! This session will cover appropriate and professional social media usage, how to establish laboratory importance at your own hospital and how to promote the profession to community members.

#15 Emerging Pathogens Update - 2020 (I) PETER SHULT, PhD - This session will provide an update on current/recent infectious disease threats, the reasons for the emergence of the threats and public health actions being taken to address the threats.

#16 Microsatellite Instability: An Important Pan Tumor Biomarker (I) ANNETTE BURKHOUSE, PhD, B.Sc - Microsatellite Instability (MSI) characterization has been routinely performed by PCR for almost two decades for Lynch Syndrome screening. Recent advances in immunotherapeutics have expanded the role of MSI to a tissue agnostic biomarker for patient response. This talk will cover the history and current trends of MSI testing of tumor tissues.
#17 Cytogenetic & Molecular Genetic Diagnostic Services (I) VANESSA HORNER, PhD, FACMG - The Genome impacts human health and disease from the moment of conception throughout growth, development and aging. This session will provide a comprehensive overview of clinical laboratory testing in the field of medical genetics. Using case examples, we will cover how genetic testing is integrated into patient care, including prenatal genetics, genetic testing in children and adults, and oncology genetics.

#18 Clinical Utility of Advanced Clinical Parameters in Hematology: Reticulocyte Hemoglobin (RetHe) (I) SUSAN KANE, BSN - This presentation will discuss advanced CBC parameters including reticulocyte hemoglobin content, and immature platelet fraction. Peer reviewed studies will be presented highlighting the clinical utility of the lab data. Case study examples will be reviewed to illustrate the clinical benefits of these parameters.

#19 Using High Sensitivity Troponin to Accelerate the Diagnosis of Myocardial Infarction (I) LENETTE WALTERS, MS, MT(ASCP) - Cardiac troponins are well established as the standard biomarker to detect myocardial injury. High Sensitivity Troponin assays have higher analytic precision at lower concentrations, yielding greater clinical sensitivity for myocardial injury, accelerating a clinician’s ability to rule in (or rule out) myocardial infarctions, and provide efficiency improvements in cardiac patient management.

#20 A Novel Clinically Validated Method for Removing Therapeutic Drug Interferences from Myeloma Testing (I) DAVID MURRAY, MD, PhD - The introduction of therapeutic monoclonal antibodies (t-mAbs) to treat multiple myeloma has greatly enhanced patient care. For the clinical lab, these drugs represent a challenge as the t-mAbs can mimic the monoclonal IgG kappa M-protein used to monitor MM patients. A number of assays are now available to deal with this interference. This session will review these tests.

#21 Synthetic Microbiology: Is the Future of Infection Carbon-Based? (I) JAMES T. GRIFFITH, PhD, CLS(NCA) - Many advances in molecular techniques have advanced society through medicine and biology. Synthetic life is now at our doorstep and indeed is already making its presence felt. This session will look at how we got to this point as well as the very nature of synthetic life and what the next steps will be. Implications for all society will be speculated.

#22 Clinical Lab Reagent Water (B) JEFF LEE, VP, BBA - Does your lab water system meet the grade? Learn about the Clinical Lab Reagent Water (CLRW) requirements including system design and piping.

#23 Gotta Catch ‘Em All? Antibody Detection Challenges (I) SUSAN T. JOHNSON, MSTM, MT(ASCP)SBBCM - As with any laboratory test, the goal of antibody detection is high sensitivity and specificity. The method is just one factor that impacts antibody detection. This presentation will include a discussion on patient factors and timing of testing that also impact the ability to detect antibodies. With these challenges the question remains, do we need to “catch ’em all”?

#24 Improving Diagnosis in Medicine: The Latest on Patient Safety (I) STACY WALZ, PhD, MT(ASCP) - The latest report from the National Academy of Sciences, Engineering and Medicine, entitled, “Improving Diagnosis in Medicine”, explicitly identifies the clinical laboratory as a key partner in addressing diagnostic error. This session will provide insight in to how the laboratory profession has responded thus far.

#25 PulseNet 2.0: Using Next - Generation Sequencing for Nationwide Food Borne Illness Surveillance (I) ALLEN BATEMAN, PhD, MPH, D(ADMM) - This session will describe PulseNet, the nationwide surveillance system for Salmonella, Listeria, and Shiga-toxin E. coli. It will explain how PulseNet transitioned from pulsed - field gel electrophoresis to whole-genome sequencing, and will provide a primer on next-generation sequencing and how this technology is being used for surveillance and outbreak response.
#26 Bioethics: Yours or the Hospital's? (I) SUSAN J. LECLAIR, PhD, CLS(NCA) - “Ethics don’t count unless they hurt” is a common assumption in ethical theory development. What are you willing to give up? With a background of the major bioethical theories, discussion will center around cases involving decision making as a citizen, family member, or professional in an acute care setting.

#27 Critical Thinking in the Laboratory (I) SHEILA ERB, MBA, MT(ASCP) - This course will assist laboratorians in recognition of spurious results and guide them in determining future actions with regards to patient samples.

#28 Blood Bank Case Studies Review (I) COREY W. DULEK, MLS(ASCP) - Blood Bank cases will be reviewed. Participants will be involved in the discussion of technical avenues chosen for problem resolution.

#29 Building Emotional Intelligence: A Practical Approach (I) PAT TILLE, PHD, BS, MT(ASCP), FACSC - This session will explore the age-old concept of emotional intelligence. The concept has been around since the early 20th century, but the term was introduced in 1985. This session will define emotional intelligence and participants will gain a better understanding of self-management and self-awareness to give them better insight and control over their actions and emotions. The session will introduce some exercises that participants can use to understand emotional intelligence and use the tools to experience a positive impact on their personal and professional lives.

#30 History of the Plagues (I) JAMES T. GRIFFITH, PhD, CLS(NCA) - Humans have been associated with microorganisms since before the existence of our species (Homo sapiens var sapiens). Pestilence is quite another matter. We have NOT always had plagues, nor high efficiency kill-off from microorganisms. This session will explore our best information as to how all this began, describe some of the most notorious examples and make predictions as to the options available in our future and how they might succeed in helping us to cope with pestilence yet to come.

#31 Myelodysplastic Syndromes (MDS) (I) MELISSA HART, MD - Review of the diagnosis and classification of myelodysplastic syndromes with an emphasis on morphology.

#32 The Role of Procalcitonin in Sepsis Diagnosis, Severity and Antibiotic Stewardship (I) STEVEN A. NOEL, PhD, DABCC, MT(ASCP) - Procalcitonin (PCT) had been shown to have clinical utility with the diagnosis of sepsis. PCT is valuable for early diagnosis compared to conventional laboratory testing. Other applications include determining the efficacy of antibiotic therapy and mortality risk in infected patients.

#33 The 5 Tenets of Andragogy: Building & Enhancing the Framework of Adult Learning in the Laboratory (B) ANDREA PEIRCE, MS, MLS(ASCP) - We will explore the magic of what makes us adults excited to gain new knowledge and skills. Then we will systematically breakdown how to present new and refresh old material in ways that will spark interest, “stick” in the learners’ memories, and measure improvements. These same strategies can be used to increase respect, trust, and team building.

#34 Newborn Screening: Helping Babies Get Started on the Right Foot (I) PATRICE HELD, PhD - Newborn Screening (NBS) is one of the top ten greatest public health achievements. Its mission is to identify babies with congenital disorders and provide treatment in a timely manner. The program is reliant upon stakeholders playing critical roles, at every step. Recently, NBS has strengthened its quality assurance oversight, added technologies, and expanded the number of disorders to serve Wisconsin’s newest citizens.

#35 Stories from the Web - 20 Years of the ASCLS Consumer Information Response Team (I) SUSAN J. LECLAIR, PhD, CLS(NCA) - A role not often spoken of for medical laboratory scientists is interpreter of clinical laboratory results for patients and healthcare providers. The presentation will cover selected questions and replies from more than 750,000 inquiries providing evidence for the need for this type of service scientists.

#36 B-Cell Leukemia/Lymphoma (I) MELISSA HART, MD - Review of B-cell leukemia lymphoma with an emphasis on peripheral blood involvement by low grade leukemia/lymphoma.

#37 Student Poster Judging (I) Enjoy this opportunity to view the new and interesting scientific information presented by our future laboratory professionals, and earn P.A.C.E.® credit!

* Indicates a 2 hour session
Registration Instructions

1. General Registration (Wednesday and Thursday): Fee includes admission to meetings, general sessions, refreshment breaks, and exhibits. All lunch functions require additional fees. It is important to indicate for which day(s) you are registering and which sessions you will be attending to ensure adequate seating. Be advised that under-subscribed sessions may be cancelled. Room assignments and locations for sessions will be available at the meeting registration desk.

2. Student Registration: Students who are enrolled in a full time laboratory curriculum may register for one or both days at rates indicated. Fee includes admission to meetings, general sessions, refreshment breaks, and exhibits. All lunch functions require additional fees. It is important to indicate for which day(s) you are registering and which sessions you will be attending to ensure adequate seating. Be advised that under-subscribed sessions may be cancelled. Room assignments and locations for sessions will be available at the meeting registration desk.

3. Emeritus Members: Receive reduced General Registration; however a form must be submitted so a badge can be prepared. Lunch functions are NOT included and must be purchased separately.

4. Institutional Registration: Passes may be purchased to enable several employees from an institution to attend selected seminars during the meeting without each person needing to register for a single day. A list of individuals who will be using the institutional pass and sessions they will be attending must accompany the registration. The Institutional Registration Packet includes a name badge that must be worn by the individual using the registration at that time.

5. Guest Pass: Includes access to exhibits, social events, and the poster session. Meal functions and those sessions requiring special fees are NOT included and must be purchased separately.

6. Early Registration: Registration forms with payment must be postmarked by April 1, 2020 to receive the discounted rate. After this date, ALL registrants MUST pay an additional $10 fee. Registrations may be faxed to (800)680-2161 to qualify for early registration. Payment should then be sent prior to the meeting. Please Note: Lunch requires pre-registration; lunch tickets may not be available for purchase on the day(s) of the event.

7. Payment of Fees: Enter billing address at the top of the previous page and credit card information below or mail check payable to Classic Events, Inc. (U.S. dollars only), along with registration form to ASCLS-WI State Convention, c/o Classic Events, Inc. 2109 County Highway OO; Chippewa Falls, WI 54729. For questions contact Amanda Empey at (715)225-0541 or email to: amanda@classicevents.net.

8. Past Presidents’ Luncheon: In place of the Past Presidents’ Social, this year designated tables will be reserved for Past Presidents registering for Wednesday’s lunch service. Pre-registration and purchase of lunch is required as space is limited. If you are Past President and would like participate, please RSVP on the registration form (see ‘meals’ options on previous page).

9. Special Needs: If you have special needs that require accommodations, please contact ASCLS-WI Meeting Planner, Amanda Empey at (715)225-0541 to make appropriate arrangements.

10. Registrant Directory: ASCLS-WI will develop a directory of all conference registrants that will be available to attendees and exhibitors upon request. Please check the box near the top of the registration form if you would like your name withheld from this directory.

11. Cancellation Policy: Refunds equal to the amount paid, less $10 administrative fee, will be given to those registrants whose written notice of cancellation is received by April 8, 2020. Notification may be faxed to (800)680-2161 or emailed to amanda@classicevents.net. After April 8, 2020, 50% of any fees paid will be refunded if ASCLS-WI receives notification by April 15, 2020. Cancellations after April 15, 2020, may not be refunded.

Registration is available online! Visit www.ascls-wi.org for the link to register
